

Kidgoo product introduction:

One for all and everything:

The Kidgoo is the multi-talent in the Qeridoo world.

Maximum safety with full comfort? Extra storage space? Different operating modes? Yes, yes and yes! The Kidgoo is perfect for you if you don't want to compromise - because it simply offers you all the features that a modern children's stroller should have. The flexible multi-talent already stands out in the basic equipment with additional comfort and safety features that make your everyday life simply more beautiful and pretty simple.

The reinforced aluminum frame with a low center of gravity ensures a safe road holding, the leaf spring damping system is as a perfect complement your guarantee for a pleasant and low-vibration transport. Ride your bike into town, use it as a stroller, stow purchases and then head home - the Kidgoo is there!

You like to be here today, there tomorrow? That's not a problem either: the Kidgoo can not only be stored in a space-saving way and taken along in the trunk of your car, for example, the tow bar with quick-change function and coupling also makes it ready for use in no time for all the things you want to experience. The 360° air-filled buggy wheel can be used as a jogging wheel simply by locking the mode switch. The possibilities are endless: cycling on the road, hiking off-road or off into the snow, the Kidgoo is your reliable companion for every adventure with its large, optionally available range of accessories.

You want your baby with you? Then the Kidgoo is also perfect for your family as a stroller because of the separately available baby shell. Even the very youngest children from the first month can be part of the fun in buggy or trailer mode. Convince yourself of the many perfectly thought-out details: Whether magnetic closures that let you open the trunk silently when your child is sleeping, the height-adjustable handle that also serves as a roll bar in trailer mode or the unique head protectors that provide a lateral safety distance and are therefore not only practical, but unrivaled safety relevant - Qeridoo has thought of everything.

The Kidgoo is available as one or two-seater in the colors Steel Grey, Navy Blue and Ivy Green. It costs 700 euros (MSRP) as a one-seater and 750 euros (MSRP) as a two-seater. And once you've decided on a model, there's only one question left: What do we do first?
