- ✓ Locking knob
- ✓ Hex key
- ✓ 20" wheel(2x)
- ✓ User manual with guarantee card

PRODUCT DATA SHEET

Kidgoo 2 FIDLOCK Edition

BECAUSE GOOD THINGS ATTRACT

Intelligent, innovative, and intuitive – these are exactly the solutions that Qeridoo loves. No wonder that a particularly „attractive“ Kidgoo has been created in cooperation with exceptional manufacturer FIDLOCK: The new Kidgoo FIDLOCK Edition takes the children's bicycle trailer to a whole new level. „Magnetic power is our passion“ is the motto at FIDLOCK. This passion has been perfectly translated into the world of children's bicycle trailers by both premium partners. When opening and closing become an experience, then it's the Kidgoo FIDLOCK Edition! In addition to a general optimization from the tow bar to the trunk lid, this model also has great features for your urban city adventure or wild outdoor adventure: For example, the pre-assembled FIDLOCK TWIST base by Qeridoo, with which you can attach your water bottle to the height-adjustable handlebar with rollover protection in seconds (accessories available optionally). Annoying rummaging in the bag? Not on your tours! Inside the cabin, the magnetic FIDLOCK 5-point safety harnesses make buckling up and unbuckling an absolute breeze. An additional mini-bag provides the perfect storage space for the Qeridoo smart tag, which you can purchase online with a €20 discount after buying the Kidgoo FIDLOCK Edition (voucher included). Furthermore, the optimized ventilation corners and the detachable side Velcro sunshade ensure optimal climate control. Also included in the delivery is the removable dirt mat, which catches dirt and moisture.

It's not just magnetic, it's magic

Of course, the patented head protectors with reflective strips are still on board, offering maximum safety as well as the indispensable headroom. The comfort seat system with integrated back protectors ensures a comfortable and safe ride, the height adjustment of the adaptive restraint system („easy ARS“) can be easily moved and is optimally adapted to your child in seconds. When not in use, the seat can be easily replaced with the cargo insert plate, making the Kidgoo the perfect means of transportation. The magnetic canopy lock, secured by FIDLOCK fasteners, holds securely in place but can still be easily opened. It's like magic... magnet magic!

Style meets Safety

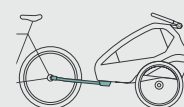

There have been some updates on the outer appearance of the Kidgoo as well: the roof is even more stable than it already was and load securing has been optimized with stylish lashing straps. The new metal bracket for securing the lock makes theft protection easier, especially when used as a bicycle trailer. The high-end tires from Schwalbe are an absolute highlight: The bicycle tire specialist ensures incredible comfort and outstanding mileage with the lowest possible wear. With the 360° rotating, air-filled buggy wheel with walker mode and the tried-and-tested leaf spring damping system, there's nothing standing in the way of sporty but smooth, jolt-free excursions! Walking, strolling, jogging, or cycling – together with the 3-in-1 canopy, which offers insect, sun, and splash protection for all activities, you can plan the next great tour with your child without any worries. Whether outside or inside, with easy features that save time, make handling easier, or are simply really smart, the Kidgoo is perfect for everyone who wants to stay ahead in the future. And as usual with Qeridoo, all this is possible thanks to the device for a hammock plus or baby shell from the first month of life (buggy mode).

The Kidgoo is available as a one-seater or a two-seater in grey-orange, priced at 949 euros and the two-seater at 999 euros.

SECURITY

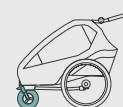

- ✓ The following standards were taken into account: EN 15918:2011 + A2:2017 + EN 1888-1:2018 + A1:2022 / developed on the basis of ASTM F1975-2015
- ✓ Tested for harmful substances
- ✓ Side and rear impact protection
- ✓ Patented head protectors and wheel deflectors with reflective strips
- ✓ Leaf spring damping system / Magnetic 5-point safety harness
- ✓ Increased headroom thanks to roll bar in trailer mode
- ✓ Reinforced aluminum frame with floor protection
- ✓ Low center of gravity for safe road holding
- ✓ Canopy safety / reflector lines on wheels, cover and canopy
